DR. DAVIDE DI GIOVANNI

DR. ROBERT STASCHUK

To Whom It May Concern:

I'm pleased to recommend QC Designing Quality Cabinetry Inc.. In 2009, I worked closely with Fred Evans, president and project manager of QC Designing, on our new dental office project. The quality of the cabinetry was more than we had expected and their creativity and services are top-notch. We have been very pleased with the work they've done for us.

We have dealt with other companies in the past but were never quite satisfied with the work or quality of the final product. However, we gave Fred Evans and QC Designing the opportunity to custom build and install all our cabinetry for our brand new dental office and we were thrilled with the results. Not only were they on time and on budget with the completed work but the quality and level of service was second to none. The finished office looks fantastic and QC Designing Cabinetry has helped with that success.

I recommend them without hesitation and would hire them again if given the opportunity.

Sincerely,

Dr. Davide Di Giovanni
